The documentation that needs to be obtained by the respective clients is in accordance with the provisions of relevant AML regulations and laws applicable.

7.2.2. The documents required for the verification of your identity to approve the registration of your Account, may be provided to the Company within 15 (fifteen) calendar days from the date

7.2.3. Upon the provision of all requested documentation, and prior to the expiration of the 15 (fifteen) calendar days mentioned in Clause 7.2.2 above, the Company will assess and verify the provided documentation and, if everything is in line with the Company's procedures, an approval of your registration as a Client will be sent to you by e-mail to the address you have provided during the registration of the Account.

7.2.4. In case the documents requested during your registration are not provided within the 15 (fifteen) days period, the Company shall proceed with the suspension of your Account and any other Electronic Services related to your Account will also be terminated. In case of a suspension, the Company will terminate the business relationship with you on the expiration of the last day of 15 (fifteen) calendar days period and all available funds will be returned to the same bank account from which they were initially transferred to the suspended Account. All open positions on the to-be-suspended Account will be closed automatically on the expiration of the last day of the 15 (fifteen) calendar days period. If the expiration date falls on a non-trading day/hours the positions will be closed at the first upcoming opening of the markets in the CAPITAL.COM Online Trading Platform.

7.2.5. The Company may, at its sole discretion, at any time during the business relationship with you, request additional documents, including but not limited to the identification documents, proof of funds, evidence of your sources of funds, proof of ownership of the payments methods, as well as selfies with requested documents.

7.3. Registration Approval

Upon the approval of your registration, you will be notified by e-mail to the address you have provided during the registration of the Account.

7.4. Additional Requirements

The Company may, in its sole discretion, at any time during the business relationship with the Company, and on reasonable grounds, request that, in addition to online acceptance of these Terms, the Client must complete and submit any signed documents as required by the Company, including but not limited to these Terms and the Risk Disclosure Statement.

PART 8. TRADING POLICIES AND PROCEDURES/ORDERS

8.1. Placing Orders

You may give us instructions in electronic form through the Website or the mobile app. You accept that all instructions should be placed manually and any use of an automated data entry system or tampering in any way with the Online Trading Platform is expressly and strictly prohibited.

In these Terms “instructions” and “orders” have the same meaning. When placing an Order, if it becomes pending, the funds required for its execution are blocked from the free funds available in the Client’s Account (the blocked funds cannot be used for other Orders, until the pending ones are executed or cancelled).

8.2. Types of Orders Accepted

8.2.1. An order is an offer to open or close a transaction if our price moves to, or beyond, a level specified by you. Our approach is to place orders solely as a principal and not as an agent on your behalf; we are the sole counterparty to your trades and the sole execution venue for your orders. The CAPITAL.COM Online Trading Platform supports the following types of orders:

- a.** A Market Order is an instruction to buy or sell a CFD in a specified size at the best available market price for that size and it will be executed immediately at the best available market price (the price might change before execution, especially with less liquid financial instruments); Market Orders can be placed only during the trading hours of the underlying asset. Where there is insufficient liquidity available for the specified size your Market Order will be partially filled while the remaining quantity will be cancelled by the system. A Market Order can take Profit/ Stop Loss Orders attached.

- TERMS AND CONDITIONS**
- b.** A Limit Order is an instruction which allows the Client to set a minimum price (for a sell order) or a maximum price (for a buy order). This gives you a control over the price at which the Limit Order is executed, however this Limit Order may never be executed (or filled). A Limit Order can be used to either open or close a position. When there is insufficient liquidity available for the specified price your Limit Order will be partially filled with the remaining quantity actively pending until it is fully filled or cancelled. Once a Limit Order is triggered it will be executed at a level that is the same or better than the level specified by you. Limit Orders can take Profit and Stop Loss orders attached.
 - c.** A Working order is a general term for opening either a Stop or Limit Order. This allows the Client to buy or sell a CFD once it meets the stop price predetermined by the Client (after the CFD hits the Client's stop price, the Stop Order becomes a Market Order and is executed at the best price available).
 - d.** A Stop Market Order is an instruction to execute a trade when a price level (the Stop Market Level) is reached that is equal to or worse than the current best price (a Stop Market Order). When the Stop Market level is reached, the Stop Market Order will trigger and a Market Order will be sent to execute the trade at the best price available at the time the Order is placed for the quantity you wish to buy or sell. Your execution price may be better or worse than the Stop Market Level you set depending on the liquidity available and the size of your Order. Stop Market Orders can be placed and/or cancelled at any time, even when the market is closed. In order to amend a Stop Market Order, you would need to cancel the existing one and place a new Stop Market Order provided the market conditions allow that. Stop Market Orders can be used to open or close a trade and can be Good For Day (GFD) or Good Til Cancelled (GTC). This means that for "GFD" Stop Market Orders any portion of the Stop Market Order which has not been executed during the trading day in which the Order was placed is automatically cancelled at the end of that trading day. It may be the case that your Stop Market Order could be partially executed if there is insufficient liquidity to cover all of your Order at the time your Stop Market Order is triggered. A "GTC" Stop Market Order would remain a working order until you choose to cancel it, if it is cancelled because you are on a margin call, or your Order is filled and becomes a position.

TERMS AND CONDITIONS

Take Profit and Stop Loss Orders attached to Stop Market Orders will be set at a specified level away from the worst execution price received (e.g. 50 points away from the highest Offer price for a Long Market Order). Your Take Profit and Stop Loss Orders will not be set at a level relative to the volume weighted average opening price of your Order.

e. A Take Profit is an order that can be attached to working orders, market orders or open positions, to close a position at a price that is better than the current price. This order type is primarily used to lock in profits from a position. If the market has moved to the opposite direction of a position, it is possible to set up a Take Profit at a price that is better than the current price but worse than the opening price. Thus, it is possible to limit losses with a Take Profit order. Where a Take Profit Order is attached to a working order it will be a contingent order that would become active once all or part of your opening order has been executed giving rise to a position being opened on your Account. The Take Profit Orders will be filled at the predefined price. If a Take Profit Order is partially executed because there is insufficient liquidity at the price you specified, the remaining part of your order will be active until your price level is reached again and more liquidity is available. A Take Profit Order will remain active until it is executed or removed, or the open position is closed.

f. A Stop Loss is an order that can be attached to working orders, market orders or open positions, to close a position at a price that is worse than the current price. This order type is primarily used to limit the potential losses you can incur from an open position. If the market has moved to the direction of a position, it is possible to set up a Stop Loss at a price that is worse than the current but better than the opening price. Thus, it is possible to lock profits with a Stop Loss order. If the Stop Loss level is reached, the Stop Loss Order is executed as a Market Order at the best price available for the quantity you wish to buy or sell. A Stop Loss Order will remain active until it is executed, or removed, or the open position is closed. If a Stop Loss Order is partially executed because there is insufficient liquidity, the remaining part of your order will be active until your price level is reached again and more liquidity is available.

We do not guarantee that a Stop Loss Order will be filled at the price specified.

- g.** A Trailing Stop order is a specific type of Stop Loss that automatically follows your positions, provided the market moves in your favour. If the market moves against you, then the stop loss level does not move.

A Trailing Stop order does not set the stop level at a certain price, but rather at a certain distance away from the current market price. It would be placed below the current market price if you are opening a long position on an asset, and above the current market price if you are opening a short position. A Trailing Stop is set at a percentage level or certain amount of points away from the market price – this distance is known as the trailing step – and the stop will move to maintain that distance from the current price.

One of the largest benefits of a trailing stop is the flexibility that it offers you, as you don't have to manually move your stop if your position moves in your favour, and you want to adjust your exposure accordingly. If you leave a basic stop on an open position, which you don't then readjust if your trade is profitable, your position will only automatically close if it retraces back to where you originally placed your stop. Any profits that you could have taken from the position, had you closed it earlier, would be lost. Trailing Stops help prevent this from happening, protecting the profits on a successful trade as well as minimising losses.

When you are setting a Trailing Stop, you have to be careful not to set your trailing step too far away from the market price or too near to it. If you set it too far away, you are at risk of unnecessary losses, but if you set it too close to the market price, you might be closed out before your trade has had the chance to make a profit.

- h.** A Guaranteed Stop Loss Order is an order that can be attached to working orders, market orders or open positions, to close a position at an exact price determined by you that is worse than the current price. This order type is used to limit the losses you can incur from an open position. If the market has moved to the direction of a position, it is possible to set up a Guaranteed Stop Loss at a price that is worse than the current but better than the opening price.

Thus, it is possible to lock profits with Guaranteed Stop Loss order. When accepting your Guaranteed Stop Loss Order we guarantee that when our bid or offer quote goes beyond the price specified by you, we will close your position at exactly the price specified. An open position can be closed at your initiative before reaching the Guaranteed Stop Loss Order level. As we guarantee your close out price, there is a fee charged when the Guaranteed Stop Loss Order is triggered and executed (see cl. 5.13 Guaranteed Stop Loss Order Fee (GSL Fee)).

8.2.2 Limit Orders and Stop Loss Orders for equity CFDs are executed based on the preceding ex-dividend prices and if not fully executed before the occurrence of the forthcoming Corporate Event, entitling the Client to a dividend for the equity CFD position(s) he/she currently holds, the Client's relevant CFD position(s) will be closed by the Company prior to that Corporate Event at the then prevailing market price. Similarly, the Company will ask the Client to close any affected pending Limit Orders and Stop Loss Orders before the forthcoming Corporate Event or will do so on its own.

8.2.3 Limit Orders and Stop Loss Orders applied to equity CFDs based on cum-dividend prices will be valid for the ex-dividend price (and vice versa) unless specifically cancelled by the client.

8.2.4 We may introduce new types of orders from time to time by posting a relevant alert and updating the current information on our platform.

8.2.5 We may introduce restrictions on a temporary basis regarding a certain type of Order or all Orders.

8.3. Terms of Acceptance for Orders

8.3.1 It is your sole responsibility to clearly indicate the terms of an order when entered, whether it is a Market Order, Limit Order, Take Profit, Stop Loss or any other type of order, including the relevant price and lot size.

8.3.2 You acknowledge and agree that, despite our best efforts, the price at which execution occurs may be materially different to the price specified in your order. This may result from sudden price movements in the underlying assets or other reasons that are beyond our control.

8.3.3 The Company shall have no liability for failure to execute orders.

8.3.4 The Company shall have the right, but not the obligation, to reject any order in whole or in part prior to execution, or to cancel any order, where your Account contains margin that is insufficient to support the entire order or where such order is illegal or otherwise improper.

8.4. Execution Policy

8.4.1 If there are no specific instructions from the Client on how to execute the order, we will consider several execution factors to ensure that we manage the order on terms most favourable to our Client. These execution factors include:

- a. price;
- b. speed;
- c. likelihood of execution and settlement;
- d. costs;
- e. size and nature of the order;
- f. any other considerations relevant to the execution of the order.

8.4.2 It is emphasised that the specific instructions as mentioned above prevent the Company from taking the steps that it has designed and implemented in order to ensure the best possible result for the execution of those Orders in respect to the elements covered by those instructions.

We do not consider the above list exhaustive and the order in which the above factors are presented shall not be taken as an indication of their priority.

8.4.3 The best possible result for our Clients will be determined in terms of the total consideration, represented primarily by the price of the financial instrument and the costs related to the execution. The costs related to the executions include the expenses incurred by the Client which are directly related to the execution of his/her order.

8.4.4 The other execution factors of speed, likelihood of execution, size, nature or any other relevant consideration will, in most cases, be secondary to the price and costs considerations, unless they would deliver the best possible result for the Client in terms of total consideration.

8.5. Cancellation/Withdrawal of Instructions

8.5.1 Non-market orders may be cancelled via the CAPITAL.COM Online Trading Platform but we can only cancel your instructions if you explicitly request so, provided that we have not acted up to the time of your request upon those instructions.

8.5.2 Executed instructions may only be withdrawn or amended by you with our consent.

8.5.3 The Company shall have no liability for any claims, losses, damages, costs or expenses, including legal fees, arising directly or indirectly out of the failure of such order to be cancelled.

8.6. Right not to Accept Orders

We may, at our sole discretion refuse to accept any Order or instruction from the Client or may accept the Client's Order subject to certain conditions or may refuse to proceed with an Order that the Company has accepted (including but not limited to situations where the Company is unable to execute the Client's Order due to restrictions with executing brokers or other third parties, trading venues or due to unusual market conditions). The Company will make all reasonable efforts to facilitate sales and to notify the Client in writing unless the Company is prevented from doing so by law.

8.7. Control of Orders Prior to Execution

8.7.1 We have the right (but not the obligation) to set limits and/or parameters to control your ability to place orders at our absolute discretion. Such limits and/or parameters may be amended, increased, decreased, removed or added by us at our absolute discretion and may include (without limitation):

- a. controls over maximum or minimum order amounts and maximum or minimum order sizes;
- b. controls over our total exposure to you;
- c. controls over prices at which orders may be submitted (to include, without limitation, controls over orders which are at a price which differs greatly from the market price at the time the order is submitted to the order book);
- d. controls over the Electronic Services (to include, without limitation, any verification procedures to ensure that any particular order or orders has come from you); and/or
- e. any other limits, parameters or controls which we may be required to implement in accordance with Applicable Regulations.
- f. the Client accepts that some small and micro cap shares that are traded on highly illiquid markets, or by way of an auction, or other non standard bidding process, may cause delays in executing Orders in such financial instruments. Therefore, the Platform will process the Client's Order as soon as is reasonably possible and will not be liable for any loss of the Client in this regard.

8.8. Trade Adjustments

8.8.1. Clients must be aware that CFD transactions carry a high degree of risk. The amount of initial margin may be relatively small with regard to the value of the instrument so that transactions are 'leveraged' or 'geared'. A relatively small market movement may have a proportionately larger impact on the funds that the Client has deposited or will have to deposit. This may work against as well as for the Client.

8.8.2. The Company exclusively reserves the right to widen its variable spreads, adjust leverage and/or increase the margin requirements without notice under certain market conditions including, but not limited to, when the CAPITAL.COM Trading desk is closed, around fundamental announcements, as a result of changes in credit markets and/or at times of extreme market volatility.

8.9. Execution of Orders

We shall reasonably endeavour to execute any order promptly, but in accepting your orders we do not represent or warrant that it will be possible to execute such order or that execution will be possible according to your instructions. If we encounter any material difficulty, relevant to the proper carrying out of an order on your behalf, we shall notify you promptly or as soon as we reasonably can.

Despite the above, we have designed appropriate policies and procedures in order to ensure compliance with the obligation to execute orders on terms most favourable to our clients and to achieve the best possible result for them, taking into consideration each client's ability, needs and trading policies, producing a result which provides, in our view, the best balance across a range of sometimes conflicting factors. The Company shall apply best execution rules in cases where you have not provided the Company with specific instructions.

8.10. Hedging Mode

The Company offers its clients "Hedging Mode" trading. What is a hedging mode and how to use it in trading can be found on our website [here](#).

8.11. Reporting Transactions and Account Statements

8.11.1. Trade Confirmations

Confirmations for all Transactions that we have executed on your behalf on that trading day will be available on the mobile app and are updated online as each Transaction is executed.

Confirmation of execution and statements of your Account(s), in the absence of manifest error, shall be deemed correct, conclusive and binding upon you, if not objected to within three days by email, if orders were placed through the Company's Online Trading Platform.

In cases where the prevailing market represents prices different from the prices posted online by the Company on the Website and the mobile app, the Company will attempt, on a best efforts basis and in good faith, to execute Market Orders on or close to the prevailing market prices. This may or may not adversely affect Client's realised and unrealized gains and losses.

The Client might request to receive the Account statement monthly or quarterly via email, by providing such a request to the Client Support Department (support@capital.com).

8.12. Improper or Abusive Trading

8.12.1. The Company's objective is to provide the most efficient trading liquidity available in the form of streaming, tradable prices for most of the financial instruments we offer on the CAPITAL.COM Online Trading Platform. As a result of the highly automated nature of the delivery of these streaming, tradable prices, you acknowledge and accept that price misquotations are likely to occur from time to time.

8.12.2. Should you execute transactions falling within the definition of Market Abuse or execute trading strategies with the objective of exploiting such misquotation(s) or acting in bad faith, including acting in any other way to abuse and/or gain any unfair advantages when using our Online Trading Platform or Services, the Company shall consider this as improper or abusive behaviour.

8.12.3. Should the Company determine, at its sole discretion and in good faith, that you are taking advantage, benefitting, attempting to take advantage or to benefit of such misquotation(s) or that you are committing any other improper or abusive trading, including but not limited to:

- a.** fraud/illegal actions that led to the transaction;
- b.** use of an automated data entry system, mass data entry system, any electronic devices, robots, high speed trading system, or any kind of software or program, or automated software algorithms which might manipulate, alter, tamper with or otherwise abuse our Online Trading Platform or give you an unfair advantage when using our System or Services;
- c.** orders placed based on manipulated prices as a result of system errors or system malfunctions, or transactions executed when the CAPITAL.COM Online Trading Platform indicates an anomalistic price for underlying assets (i.e. the price which does not expressly correspond to the current market price for them)
- d.** arbitrage trading on prices offered by our platform as a result of systems errors or any other arbitrage practices (including but not limited to latency abuse), price manipulation or time manipulation, including but not limited to that which aims to manipulate or take unfair advantage of the way in which we construct, provide or convey our bid or offer price;
- e.** coordinated transactions in order to take advantage of systems, system errors and delays on systems updates, including but not limited to actions, coordinated between different clients, aimed at making profit (generating income) out of the application of such functions (opportunities) of the CAPITAL.COM Online Trading Platform as the Negative Balance Protection and the "Stop-loss order", as well as any other action(s), including those coordinated between different clients and/or acting in tandem with third party(-ies) aimed at making profit (generating income) from the application of functions (opportunities) of the CAPITAL.COM Online Trading Platform not in accordance with the purposes of such functions (opportunities); and/or carrying out "oppositely directed" ("mirror") Transactions (operations) (i.e. Long position and Short position) within one market or in relation to the same

underlying asset, opened with insignificant time difference and/or difference in prices for underlying assets on one on the same device and/or) from one and the same IP-address but with the use of different Accounts (created in the name of different persons and/or entities), including those aimed at making profit (generating income) from the application of functions (opportunities) of the CAPITAL.COM Online Trading Platform;

- f. orders placed with the use of inside information (i.e. abusive exploitation of privileged confidential information, the misuse of information or directors trading shares of their own companies);
- g. any other unfair, abusive, manipulative, or illegal way of using our Services or Platform; or use of any device, software, program, algorithm or any trading strategy that aims to manipulate, alter, tamper with or take unfair advantage of our Services or Platform, then the Company will have the right to:
 - i. adjust the price spreads available to you; and/or
 - ii. restrict your access to streaming, instantly tradable quotes, including providing manual quotation only; and/or
 - iii. obtain from your Account any historic trading profits that you have gained through such improper or abusive trading as determined by us at any time during our trading relationship; and/or
 - iv. reject an order or to cancel a trade; and/or
 - v. make any corrections or adjustments to your Account; and/or
 - vi. immediately terminate our trading relationship, and/or
 - vii. suspending the Client's account, including freezing of funds, as described in Section 9.12; and/or
 - viii. take any of the enforcement measures, provided in Section 13.3.

8.12.4. Without prejudice to clause 8.12.3 herein, the Company may allow using the tools which are technically integrated into the platforms used by the Company for the provision of Electronic Services (specifically, but not limited to, MT4 and MT5 platforms). However, the Company reserves the right to assess whether such use remains appropriate, not qualified as improper or abusing trading and does not violate these Terms and terms of use of the relevant platform. In case of any breaches, the Company is entitled to undertake the measures prescribed by these Terms, including clause 8.12.3.

8.13. Prohibited Trading

8.13.1. No employee and/or former employee who currently works or used to work on a full time or part time basis for the Company or any of its related entities shall, during the term of the employee's and/or former employee's service to the Company or any of its related entities and after termination of service become a Client of any brand of the Company (either directly or indirectly, alone or with partners, associates, affiliates or any other third party) without the Company's prior written approval.

8.13.2. Should the Company consider that the employee and/or former employee is trading with any brand of the Company without the Company's prior written approval personally and/or via a third party we shall consider all the trading to be abusive and/or improper trading. In such circumstances, the employee and/or former employee's Account(s) and all open positions shall be closed immediately and any funds held within the Account shall be returned.

8.13.3. No business associate or former business associate of the Company or any of its related entities shall, during the period of the agreement between the associate/former business associate and the Company and after termination of such agreement, become a Client of any brand of the Company (either directly or indirectly, alone or with partners, associates, affiliates or any other third party) without the Company's prior written approval.

8.13.4. Should the Company consider that the associate/former business associate is trading with any brand of the Company without the Company's prior written approval personally and/or via a third party we shall consider all the trading to be abusive and/or improper trading. In such circumstances, the relevant associate/former business associate's Account(s) and all open positions shall be closed immediately and any funds held within the Account shall be confiscated.

8.14. Disabling and Cancelling Deposits

8.14.1. We have the right not to accept funds deposited by you and/or to cancel your deposits in the following circumstances:

- a.** if you fail to provide the Company with any documents it requests from you either for Client identification purposes or for any other reason;
- b.** if the Company suspects or has concerns that the submitted documents may be false or fake;
- c.** if the Company suspects you are involved in illegal or fraudulent activity;
- d.** if the Company is informed that your credit or debit card (or any other payment method used) has been lost or stolen;
- e.** where the Company considers that there is a chargeback risk; and/or when you deposit ten thousand (10 000) USD or more (or an equivalent of the same in one of our Base Currencies) or if you make over ten (10) separate deposits to your Accounts and the Company is unable to verify your credit or debit card details or is unable to verify any other payment method used.

8.14.2. In case of cancelled deposits, and if it is not a confiscation of your funds by a supervisory authority on the grounds of money laundering suspicion or for any other legal infringement, your funds will be returned only to the bank account that they have been initially received from.

8.15. Performance and Settlement of Transactions

8.15.1. You will promptly deliver any instructions, money or documents deliverable by you under a Transaction in accordance with that Transaction as modified by any instructions given by us.

8.15.2. The Company shall proceed to a settlement of all transactions upon execution of such transactions.

8.15.3. Following execution of the order, we will send you an electronic confirmation in respect of that Transaction as soon as reasonably practicable, and in any event within the time required by the relevant laws and regulations.

8.15.4. In cases of technical or human errors during a Transaction resulting in crediting unsolicited funds to your trading or banking account or other payment method you agree that the erroneous Transaction will be void from the outset and you will be liable to return to us any erroneously transferred funds according to the clause 18.4.3.

8.15.5. At its sole reasonable discretion CAPITAL.COM may temporarily introduce or amend the minimum or maximum size of any Order in any Investment (CFD) and will try to provide the Client with the possibility to close the entire investment, which was affected. Notification of any such restrictions beforehand is mandatory.

8.16. Consent

You consent to receive all Account information, Trade Confirmations and Account Statements through a durable medium.

If you no longer wish to receive such information through electronic means, you must notify us and revoke this consent in writing. However, if you revoke your consent, your access to our Trading Platform may be restricted or terminated at our sole discretion.

8.17. Position Limits

We may require you to limit the number of open positions which you may have with us at any time and we may in our sole discretion close out any one or more Transactions in order to ensure that such position limits are maintained.

8.18. Withdrawals

Without prejudice and subject to these Terms and all Applicable Laws and Regulations funds may be withdrawn by you from your Account once your withdrawal request is processed and approved, provided that such funds are not being utilised for margin purposes or have otherwise become owing to us, there is a remaining positive balance on your Account and the Account is approved following the verification of the Client as per the applicable Anti-Money Laundering Laws and Regulations governing the Company.

TERMS AND CONDITIONS

Your withdrawal request will be processed by us and sent to the same bank, credit card or other source for execution owned by you. No Account withdrawals to third parties will be processed by the Company.

If you request a withdrawal of funds from your Account and we cannot comply with it without closing some part of your open positions, we will not comply with the request until sufficient positions are closed, and we have established that you have a positive balance on your Account to make the withdrawal.

The Client shall have the right to withdraw money from the Client's Account up to the amount of the free money available to it's account.

Payments to third parties from the Client's Account will not be allowed. Bank deposits from third parties to the Client's Account shall not be accepted either. The Client shall have the right to transfer money to CAPITAL.COM bank accounts only after accepting the Terms and Conditions with CAPITAL.COM and receiving a username and password.

8.19. Inactive Account

8.19.1. The Client acknowledges and confirms that any Account(s) holding funds or not holding any funds, opened by him/her with the Company where the Client has neither open nor closed positions and does not have an active open position for a period of 1 month, shall be classified by the Company as an inactive account ("Inactive Account"). The Company reserves the right to close Inactive Accounts at its sole discretion. In this case all the remaining funds held on the Inactive Account will be refunded to the payment method used for depositing.

8.19.2. Any Account that is not an Inactive Account shall be classified by the Company as an active account ("Active Account").

8.20. Negative Balance Protection

CFDs are leveraged products and therefore incur a high level of risk and may result in the loss of all the Client's Invested Capital. For the benefit of the Company's Clients, the Company has implemented a "no negative balance" protection program, on an account basis, whereby the Client cannot lose more than his/her investment.

Nonetheless, the Client is expected to actively monitor and manage open positions in the account and to contact the Company about options if the account is close to a Margin Call.

It is possible for adverse market movements to result in the loss of more than your Account balance, so that it becomes negative. In this case, we will bear the negative consequences of such adverse events and any of your losses will be limited to your Account balance.

Any trading strategy based on the use of the Negative Balance Protection mechanism and creating unfair advantages to the Client can be considered as improper or abusive behaviour, which will grant us an absolute right to suspend the trading account, terminate this Agreement or take other enforcement measures in accordance with the provisions of section 13.3. and clause 9.12 of these Terms.

8.21. Corporate Events

8.21.1. The Client has no rights or obligations in respect of the underlying instruments or assets relating to his/her CFD. Specifically, in case of an equity CFD the Client will not receive any voting rights. However, the underlying instrument can be affected by various corporate actions (hereinafter "Corporate Events"). A "Corporate Event" is any action or event, whether temporary or otherwise, in relation to an underlying asset(s) of the CFD, or in relation to the issuer of the underlying asset(s) of the CFD, which would have an effect on the value, legal characteristics or ability to trade the underlying asset(s) or the CFD based on or referencing such underlying asset(s), including but not limited to: distributions or the grant of entitlements to existing holders of rights in the underlying asset(s), dividend payments, the granting of rights to purchase, subscribe or receive any underlying asset(s) (whether for free, on preferential payment terms or otherwise) or cash, placings, rights issues, bonus/scrip issues, capitalization issues and similar issues, mergers or takeovers relating to the issuer of the underlying asset(s), sub-divisions, splits, reductions (including share buy-backs), consolidations, reclassifications, restructurings, cancellation or suspension of listing of the underlying asset(s) or the issuer of the underlying asset(s), and any action or event analogous to any of the foregoing or otherwise that may have a dilution or concentration effect on the value of the underlying asset(s) of the CFD.

8.21.2. In case a Corporate Event will occur while the Client is holding an open CFD position or has a pending order affected by such event, we will endeavour to notify the Client of such Corporate Event, accomplished or yet to occur, as soon as it is reasonably practicable, however the Company reserves the right to act without prior notifications. Corporate Events can be amended, withdrawn or cancelled at any time. These changes are beyond the control of the Company, who is not responsible for any loss of the Client in this regard. According to the type of Corporate Event, the Company will inform the Client of the action(s)/adjustment(s) to be taken, if any, including the possibility of closing the affected position(s), including any pending order(s).

In relation to the above, depending on the type of Corporate event, the Company may be required to make an adjustment to the size and/or value and/or number of the related position(s), including also the possibility of opening the new position(s) or closing of the existing position(s) at the last available price. Such adjustment will account for the diluting or concentrating effect of the Corporate Event in order to preserve the economic equivalent of the rights and obligations of the parties in relation to that position(s). Any action taken by the Company will be effective from the date determined by the Company and shall be binding, however, for the avoidance of doubt, the said actions may be retrospective. Closing of Client's CFD position(s) affected by a Corporate Event will not take place in case of dividend payments related to underlying equities. In this case adjustments will be made to the Client's Account, such adjustment will be calculated by the Company based on the size of the dividend, the size of Client's position, taxation and whether it is a buy or a sell trade. For more details please see paragraph 5.15.

8.22. Product termination

We may require you to close any of your positions which you may have with us and which may be or have been affected by product termination, no price provider or other relevant reasons, or we may close any of such positions at last available prices without prior notification at our sole discretion.

8.23. Expiring CFDs

Certain CFDs shall have an expiry date. On the expiry date an open position on the expiring CFD will be closed automatically at the then prevailing or last available market price. Weekend FX CFDs have a settlement price as defined in the relevant KID. Any affected pending order(s) will be cancelled. Nothing precludes the Client from closing the relevant position and cancelling the affected pending orders prior to the expiry date.

The expiry date for the relevant CFD shall be published on the relevant section of the Company's website and on the mobile app.

8.24. Circumstances under which the CFD may mature or be terminated

- a.** The CFD will end with the closing of the Client's position;
- b.** The Client's position may be closed by the Client at any time during the trading hours indicated on CAPITAL.COM;
- c.** The Client's position may be closed at the initiative of the counterparty when there is excessive usage of the margin or the position's margin falls below required minimum as set by the counterparty to protect the Client from the accumulation of large losses that would be expressed in a negative account balance;
- d.** The Client's position may be closed at the initiative of the counterparty in the case that an underlying asset of the CFD is no longer trading;
- e.** The Client's position may be closed at the maturity of an underlying asset (for instance with CFDs on Futures and Commodities);
- f.** The Client's position may be closed at the initiative of the counterparty in the case that changes to the liquidity of the instrument in the market mean that risk cannot be properly hedged;
- g.** The Company may terminate a client's position at its sole discretion;
- h.** under any terms and conditions mentioned in these Terms.

PART 10. CLIENT MONEY

10.1. Client Money

The Company will adhere to the best rules and practices with regards to keeping clients' money safe and will follow all applicable (if any) regulation and rules in this regard. We treat all funds received from you or held by us on your behalf in accordance with the requirements (if any) of the client money rules.

The Company will exercise all due skill, care and diligence in selection, appointment and periodic review of the credit institution(s) where Clients' funds are placed. The Company's due diligence measures have been designed in such a manner so as to ensure that expertise and market reputation of such institutions are taken into consideration.

If applicable the Company may hold Clients' funds in omnibus accounts with third party financial and credit institutions. An omnibus account means that your funds will be kept in a pooled account with money belonging to other clients. Hence, the Client is warned that there is a link of loss emanating from the use of omnibus accounts in financial or credit institutions. In general, in case of default or insolvency of the Company, no single client will have a claim against a specific sum in a specific account. Omnibus accounts may also hold other types of risks including legal, haircut risk, liquidation risk, third party and others. By accepting the Terms and by establishing a business relationship with us, you expressly provide your consent for maintaining your funds in an omnibus account.

TERMS AND
CONDITIONS

The Company may transfer Clients funds to companies of Capital.com Group according to the Clients consent and acceptance of the terms and conditions. By accepting the terms and conditions the client acknowledges and agrees with the fact that the Company is subject to specific regulation and supervision regarding the safekeeping of financial instruments and funds held for clients and that the other companies are subject to local specific regulation and supervision.

10.2. Interest

You, the Client, acknowledge and confirm that no interest will be received on the balance of your Account.

10.3. Due Care, Skill and Diligence

10.3.1. With regards to the deposit of Clients' Money, in the event we do not deposit Client Money with a central bank, we exercise all due care, skill and diligence in the selection, appointment and periodic review of the credit institutions and banks where the funds are placed and the arrangement for the holding of those funds.

10.3.2. It shall be noted that we take into account the expertise and reputation of the third party as well as the legal requirements or market practices related to the holding of those financial instruments that could adversely affect our Clients' rights.

10.4. Diversification of Risks

We shall ensure, where deemed necessary, the diversification of the Clients' financial instruments and funds, for example the maintenance of accounts with several third parties.

10.5. Omnibus Account Risk

10.5.1 The Company may hold client funds in omnibus accounts within third party financial and credit institutions. In this respect, the Client is warned that there is a risk of loss emanating from the use of omnibus accounts in financial or credit institutions. In such cases it may not be possible to distinguish if the particular Client funds are held by a certain financial or credit institution. Omnibus accounts may also hold other types of risks including legal, liquidation risk, haircut risk, third party risk, etc.

10.5.2 In the event of insolvency or any other analogous proceedings in relation to a financial or credit institution where client funds are held, the Company (on behalf of the Client) and/or the Client may only have an unsecured claim against the financial or credit institution, and the Client will be exposed to the risk that the money received by the Company from the financial or credit institution, is insufficient to satisfy the claims of the Client with claims in respect of the Account. The Company does not accept any liability or responsibility for any resulting losses so in the unlikely event of default the proportionate loss shall affect all of the Company's Clients' monies held in omnibus accounts with the financial or credit institution. To mitigate this risk the client funds are being held in few reputable financial or credit institutions and constant exposure monitoring is taking place.

10.6. Unclaimed Client Money

You agree that we may cease to treat your money as Client Money if there has been no movement on your balance for six (6) consecutive years. We shall write to you at your last known address informing you of our intention of no longer treating your balance as Client Money and giving you twenty-eight (28) Business Days to make a claim.

10.7. Liability and Indemnity

10.7.1. You agree that we shall not be liable for any default of any counterparty, bank, or other third party in which we hold client funds.

10.7.2. The Company will not be liable for loss suffered by you in connection to your funds held by us, unless such loss directly arises from our gross negligence, willful default or fraud.

PART 11. MARGINING ARRANGEMENT

11.1. Contingent Liability

11.1.1. When we effect a Transaction, you should note that, depending upon the nature of the Transaction, you may be liable to make further payments when the Transaction fails to be completed or upon the earlier settlement or closing out of your position.

11.1.2. The Client shall provide and maintain mMargin in accordance with the terms of this Agreement to secure Client's obligations to the Company. The Company must maintain at all times the minimum margin requirements for the Open Positions in Client's Account.

11.1.3. You may be required to make further variable payments by way of margin against the purchase price of the CFD, instead of paying (or receiving) the whole purchase (or sale) price immediately.

11.1.4. The movement in the market price of the CFD will affect the amount of margin payment you will be required to make.

11.1.5. We will constantly monitor your margin requirements and we will inform you as soon as it is reasonably practicable of the amount of any margin payment required under this Part.

11.2. Margin Call

You agree to pay us on demand such sums by way of margin as are required from time to time as we may in our discretion reasonably require for the purpose of protecting ourselves against loss or risk of loss on present, future or contemplated Transactions under these Terms.

11.3. Failure to Meet Margin Call

In the event that you fail to meet a margin call, we may immediately close out any of the relevant positions, as well as any pending orders that may negatively affect your margin balance once executed. For more details please refer to the Leverage and Margin Policy on our website, being an integral part of these Terms and Conditions.

11.4. Form of Margin

Margin must be paid in cash in a Base Currency of your Account. A cash Margin paid to us is held as Client Money in accordance with the requirements of the Client Money Rules. Margin deposits shall be made by wire transfer, credit card or by such other means as the Company may direct.

11.5. Set-off on Default

If there is an Event of Default or these Terms are terminated, we shall set-off the balance of the cash margin owed by us to you against your obligations (as reasonably valued by us). The net amount, if any, payable between us following such set-off, shall take into account the Liquidation Amount payable under Part 15 ("Netting").

11.6. Further Assurance

You agree to execute such further documents and to take such further steps as we may reasonably require to perfect our security interest over and obtain legal title to the Secured Obligations.

11.7. Negative Pledge

You undertake neither to create nor to have outstanding any security interest whatsoever over, nor to agree to assign or transfer, any of the cash margin transferred to us.

11.8. General Lien

In addition, and without prejudice to any rights to which we may be entitled under these Terms or any Applicable Laws and Regulations, we shall have a general lien on all cash held by us or our Associates or our nominees on your behalf until the satisfaction of the Secured Obligation.

PART 12. LEVERAGE ARRANGEMENTS

Trading on CFDs is a form of Leveraged Trading and is highly speculative, complex and involves a significant risk of loss and is not suitable for all investors. CFDs are among the riskiest types of investments and can result in large losses.

Clients must be aware that CFD transactions carry a high degree of risk. The amount of initial margin may be relatively small with regard to the value of the instrument so that transactions are 'leveraged' or 'geared'. A relatively small market movement may have a proportionately larger impact on the funds that the Client has deposited or will have to deposit. This may work against as well as for the Client.

TERMS AND CONDITIONS

The Company exclusively reserves the right to widen its variable spreads, adjust leverage and/or increase the margin requirements without notice under certain market conditions including, but not limited to, when the CAPITAL.COM Trading desk is closed, around fundamental announcements, as a result of changes in credit markets and/or at times of extreme market volatility.

The Company will take all reasonable steps to identify conflicts of interest between itself, including its managers, employees or any person directly or indirectly linked to the Company by control and its clients or between one client and another that arise in the course of providing any investment services.

The Company maintains and operates effective organisational and administrative arrangements to prevent and manage conflicts of interest that may arise during the provision of any investment services, from adversely affecting the interests of its clients. In case where, the aforementioned arrangements are not sufficient to ensure, with reasonable confidence, that the risks of damage to the interests of the clients will be prevented, the Company shall clearly proceed with the disclosure of such conflict. The said disclosure shall be done in a durable medium indicating the general nature and source of conflicts of interest, the risks to the client with sufficient details so as to allow the client to take an informed decision with regards to its investment as well as the steps taken to mitigate such risks.

The Company shall identify all conflicts of interest, their severity and document controls to mitigate the conflicts. It is not possible to list all situations which could constitute a conflict. The facts of each situation will determine whether the interest in question is such as to bring it within the area of potential conflict.

TERMS AND CONDITIONS

All employees, including management, will be responsible for identifying specific instances of conflict and required to notify the Compliance function of any conflicts they become aware of. The Compliance Officer (CO) will assess the implications of the conflict and how the conflict should be managed in conjunction with the board.

For the purposes of identifying the types of conflicts of interest that arise in the course of providing investment services and whose existence may damage the interests of a client, the Company takes into account, by way of minimum criteria, the question of whether the Company or a relevant person, or a person directly or indirectly linked by control to the Company, is in any of the following situations, whether as a result of providing investment services or activities:

- The Company or a relevant person is likely to make a financial gain, or avoid a financial loss, at the expense of the client;

- The Company or a relevant person has a financial or other incentive to favour the interest of another client or group of clients over the interests of the client;
- The Company or a relevant person carries on the same business as the client;
- The Company or a relevant person receives or will receive from a person other than the client, an inducement in relation to a service provided to the client, in the form of monies, goods or services, other than the standard commission or fee for that service;

For the purpose of this Policy, a “relevant person”, in relation to the Company means any of the following:

- a director, partner or equivalent, manager, or tied agent of the Company;
- a director, partner or equivalent, or manager of any tied agent of the Company;

- a natural person who is directly involved in the provision of services to the Company or tied agent under an outsourcing arrangement for the purpose of the provision by the Company of investment services and activities.

Managing conflicts of interest

The Company has established suitable and adequate internal procedures for minimising any potential conflicts of interest. The Company maintains a compliance department that is an independent unit within the Company. Among the duties of the Compliance Officer is to monitor any possible deviation from the Company's internal policies and procedures as well as identifying and managing any possible conflicts of interest. Once a conflict has been identified it needs to be appropriately and adequately managed. The Compliance function will assess each conflict and determine if the conflict is actual or perceived and what the value of the conflict or exposure is and the potential reputational risk. Compliance will then decide whether it is viable to go ahead with the transaction or if the conflict is too severe. If Compliance decides that the particular conflict can be mitigated, then controls to manage the conflict should be put in place and documented.

The Company will manage conflicts of interest fairly, between itself and its clients, between itself and its employees and between its customers and to organise and control their internal affairs responsibly and effectively.

The Company and its employees should act as per the principle of placing clients' interests before self-interests and Company's interests in order to avoid conflicts of interest in the fulfilment of professional activities on the securities market. To ensure client's fair treatment, the Company will introduce the following procedures:

- The Company shall avoid any conflict of interest with clients and, where such a conflict unavoidably arises, ensure fair treatment to the client by complete disclosure or by declining to act.

CONDITIONS

Segregation of Company's assets from clients' assets

The Company shall maintain separate accounting records between its own assets and those of its clients to facilitate the protection of clients' assets and the prevention of the use of customer assets by the Company or by other third parties so as to minimise the risk of the loss or diminution of client assets, or of rights in connection with those assets, as a result of misuse of the assets, fraud, poor administration, inadequate record-keeping or negligence. In addition, the Company has legally secure segregation of clients' assets from the Company's assets in case the Company becomes bankrupt. For this purpose, the Company maintains separate books and accounting records for each client.

Disclosure of conflicts of interest

In case where, the organisational and administrative arrangements established by the Company to prevent or manage a conflict are not sufficient to ensure, with reasonable confidence, that the risks of damage to the interests of the clients will be prevented, the Company shall clearly proceed with the disclosure of such conflict.

Prior to carrying out a transaction the Company should disclose any actual or potential conflict of interest to the client provided that the measures taken by the Company are not sufficient to ensure that the risks of damage to the interests of the client will be avoided.

The above disclosure shall include sufficient detail, taking into account the nature of the client, source of conflicts of interest, the risks to the client to enable him to take an informed decision with respect to the investment service in the context of which the conflict of interest arises. The Company reserves the right not to proceed with the transaction or matter giving rise to the conflict if such disclosure is not sufficient to manage a conflict.

The Management and employees of the Company should disclose the following information to the Compliance Officer:

- Opening and closing personal accounts at any other Broker for own investments purposes
- All personal transactions performed. Notification should be provided within 24 hours
- Financial instrument held by the employee

Annex 2 – Swap-Free Account Terms and Conditions

1. These Swap-Free Account Terms and Conditions (hereinafter referred to as the Terms) are a supplementary and integral part of the Agreement with clients on conducting operations involving non-deliverable over-the-counter (OTC) financial instruments (CFDs Transactions) concluded between Company and the Client, and they govern the terms and conditions of using a Swap-Free account.

These Terms supplement and modify the Agreement. The provisions of these Terms supersede the provisions of the Agreement only to the extent that the provisions of these Terms and the Agreement expressly conflict. Nothing in these Terms should be interpreted as invalidating the Agreement, the provisions of which will continue to govern the relationship between the Parties insofar as they do not expressly conflict with these Terms. In case of a contradiction between these Terms and the Agreement, the Terms shall prevail. For these Terms, definitions and expressions shall have the meanings given to them as defined in the Agreement, unless the context otherwise requires.

2. By applying for a Swap-Free account, the Client explicitly expresses his/her approval and acceptance of these Terms.

3. A Swap-Free account is designed and offered by the Company to its Clients who can not use a regular account owing to their religion, faith, or beliefs.

4. A Swap-Free account is an account with the following special conditions being applied:

- 4.1. No overnight commission (also known as "swap") is applied. If the Client holds a position open overnight, the overnight commission is not deducted from or added to the Client's deposit;

- 4.2. The spread size in a Swap-Free account may differ from the spread size in a regular account.

5. The Client can have only one type of account: a regular account or a Swap-Free account. For existing Clients, it is necessary to close the existing regular account before opening a Swap-Free account. Before closure of a regular account, the Client should make sure that a Swap-Free account is available for him/her by contacting the Company via any appropriate means of communication.

9. It is strictly prohibited to apply for a Swap-Free account and/or use such an account if the primary reason for this is taking advantage of not paying overnight commission inherent in a regular account. Should the Company determine, at its sole discretion and in good faith, the violation of this rule, the Company shall be entitled to:

- i. suspend or block the account (suspend and/or terminate the provision of the Services under the Agreement);
- ii. terminate the Agreement (unilaterally and extrajudicially refuse to perform the Agreement);
- iii. take any other measure(s), provided in Section 9.3 and/or other sections of the Agreement for the Client's violation of the terms of the Agreement. In addition, should the Company determine, at its sole discretion and in good faith, that a Swap-Free account is used in bad faith, the Company shall be entitled to apply retrospectively all the overnight commissions that were previously omitted.

10. The Company reserves the right to close a Swap-Free account and/or refuse to open such an account at any time, at its sole discretion, with or without reason, without being obliged to provide any explanation or justification.

Annex 3 – Risk Disclosure & Acknowledgment

It is important for the Client to understand the risks involved before deciding to enter into a trading relationship with the Company. If the Client chooses to enter into a trading relationship with the Company, he should remain aware of the risks involved and be able to have adequate financial resources to bear such risks. The financial instruments offered by the Company are high-risk products that are traded on margin and carry a risk of losing all Client's initial deposit. These kinds of products can fluctuate significantly and present a high risk of capital loss, therefore these products may not be appropriate or suitable for all clients and the Client should seek independent advice should he be not able to understand the risks involved.

General Risks and Acknowledgements: The Client acknowledges, understands, agrees and accepts the risks including but not limited:

1. The Company does not and cannot guarantee that funds deposited in the Client's Account for trading will not be lost as a result of the Client's transactions.
2. The Client acknowledges that, regardless of any information which may be offered by the Company, the value of any investment in Financial Instruments may fluctuate downwards or upwards and it is even probable that the investment may become of no value.
3. The Client acknowledges that he/she runs a great risk of incurring losses and damages as a result of the purchase and/or sale of any Financial Instrument and accepts that he/she is willing to undertake this risk.
4. The use of historical data does not constitute a binding or safe forecast as to the corresponding future performance of the Financial Instruments to which the said Information refers.
5. The Client is hereby advised that the transactions undertaken through the dealing services of the Company may be of speculative nature. Large losses may occur in a short period of time and may be equal to the total value of funds deposited with the Company.
6. Some Financial Instruments may not become immediately liquid, for example, as a result of reduced demand and the Client may not be in a position to sell them or easily obtain information on the value of these Financial Instruments or the extent of the associated risks.
7. When a Financial Instrument is traded in a currency other than the currency of the Client's country of residence, any changes in the exchange rates may have a negative effect on its value, price and performance.

- TERMS AND CONDITIONS
8. A Financial Instrument on foreign markets may entail risks different to the usual risks of the markets in the Client's country of residence. In some cases, these risks may be greater. The prospect of profit or loss from transactions on foreign markets is also affected by exchange rate fluctuations.
 9. The Client should not purchase a Financial Instrument unless he/she is willing to undertake the risks of losing entirely all the money which he has invested and also any additional commissions and other expenses incurred.
 10. Under certain market conditions (for example but not limited to the following situations: force majeure event, technical failure, communications network failure, poor or no liquidity, market news or announcements etc.) it may be difficult or impossible to execute an order.
 11. Should the Equity of the Client be insufficient to hold current positions open, the Client may be called upon to deposit additional funds at short notice or reduce exposure. Failure to do so within the required time may result in the liquidation of positions at a loss and the Client will be liable for any resulting deficit.
 12. Trading on-line, no matter how convenient or efficient, does not necessarily reduce risks associated with currency trading.
 13. There is a risk that the Client's trades in Financial Instruments may be or become subject to tax and/or any other stamp duty, for example, because of changes in legislation or his/her personal circumstances. The Company does not warrant that no tax and/or any other stamp duty will be payable. The Client should be responsible for any taxes and/or any other duty which may accrue in respect of his/her trades.
 14. Before the Client begins to trade, he/she should obtain details of all commissions and other charges for which the Client will be liable. If any charges are not expressed in money terms (but for example a spread), the Client should ask for a written explanation, including appropriate examples, to establish what such charges are likely to mean in specific money terms.
 15. The Company will not provide the Client with investment advice relating to investments or possible transactions in investments or make investment recommendations of any kind.

There may be situations, movements and/or conditions occurring at the weekend, at the beginning of the week or intra-day after the release of the significant macroeconomic figures, economic or political news that make currency markets to open with price levels that substantially differ from previous prices. In this case, there exists a significant risk that orders issued to protect open positions and open new positions may be executed at prices significantly different from those designated.
